HEARST MAKES STRONG FIGHT IN INDIANA, BUT GETS MEAGER REWARD Pittsburg Officials Say, However,

(CONCLUDED FROM FIRST PAGE.) ty candidate. Johnson is a candidate for re-election. Congressional and joint representative delegates were chosen, but were

HEARST GETS BUT ONE IN HANCOCK COUNTY

Special to the Indianapolis Journal. GREENFIELD, Ind., April 23.-With the exception of Blue River, the Parker men swept Hancock county to-day, in the township conventions to select delegates to the State convention to be held in May. It was largely a personal victory for U. S. Jackvery friendly, and they did not want to own county. The Hancock delegation will stand: Parker, 14; Hearst, 1.

The five delegates in Center township (Greenfield), are Parker men, though the Hearst men really are in the majority The Parkerites had control of the convention, named a Parker committee to select Montgomery Marsh and a few other Hearst leaders were then accorded the floor, and excorlated the Parker men for the arbitrary manner in which they had conducted convention, but the latter, knowing that the delegation was safe, seemed to rather enjoy the verbal flagellation.

PARKER INSTRUCTIONS IN HAMILTON COUNTY

Democrats of Hamilton county sprung a Reed, of the Christian Church. "new Richmond in the field" here to-day in their county mass convention in the Both Longley and Ralston are strong up the preliminary matters.

In spite of the fact that Hearst agents had been working in the county and there was considerable Hearst sentiment in the convention, the Parker men carried their "cut and dried" plans through without op-position. The springing of Longley's name as a candidate for delegate to the St. Louis convention broke the slate as heretofore agreed on by Ninth district politicians, who had fixed on Ralston, of Boone, and D. F. Allen, of Clinton county, as the Parker delegates to the national convention. This action was taken on account of Allen losing his own county to the Hearstites. The action of Hamilton county makes certain the election of Parker delegates from this district.

BARTHOLOMEW NEARLY SOLID FOR PARKER

Special to the Indianapolis Journal. COLUMBUS, Ind., April 23.-The Hearst forces received a crushing defeat here last night in the Democratic meetings to select delegates to the convention in Indianapolis, which will select the national delegates for the St. Louis convention. Delegates were also selected for the Democrat- | tional Bank.

vention and the judicial convention. A plan had been arranged by William H. Everroad and others in this city to slip through a slate of Hearst delegates and the biggest fight was made in the Second ward in this city, where Mr. Everroad lives. His law partner, C. B. Cooper, was a candidate for state delegate. J. F. Tormehlen was nominated by the Parker men and was elected by two to one. In the other wards Parker men were selected. There is only one Hearst delegate in the county and that is in Flatrock township; where the delegate was instructed for

ic state convention, the congressional con-

Hearst Beaten in Cass.

Special to the Indianapolis Journal. LOGANSPORT, Ind., April 23.—The Cass county Democracy, in their primaries today, elected an anti-Hearst delegation. The Parker men are confident that they have secured twenty out of the twenty-three delegates, while the Hearst leaders claim four delegates. George Burkhart, former state senator, is a Hearst delegate. B. F. Louthain, editor of the Logansport Pharos, announced his candidacy for national dele-

No Instructions in Gibson. Special to the Indianapolis Journal.

EVANSVILLE, Ind., April 23 .- The Democrats of Gibson county met in township primaries to-day and selected eighteen delegates to the State convention. The delegates were uninstructed. Three are known to be for Hearst.

Hearst Claims Twelve in Jay.

Special to the Indianapolis Journal. PORTLAND, Ind., April 23 .- The Democrats of Jay county to-day chose delegates to the state convention. The Hearst men claim twelve of the seventeen.

SKIN TORTURES

Thousands of wretched people are miser-able—driven almost mad by the terrible itching and burning sensation of Eczema and other skin diseases; many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful tortures are caused by little germs that attack the skin externally, which can be rooted out in a hurry. leaving the skin clear, soft and healthy. Such misery now cleared away as surely as the sun shines above. Not merely attempted, not a matter of improvement merely, not a temporary relief-but a clearing of it all away absolutely and permanently.

THE D. D. D. PRESCRIPTION

a specific formula, put up in sealed bottles with authentic label, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, non-greasy.

Cleansed within one month.

For a number of years my husband has been flering with a terrible case of eczema. He ad doctored with the best skin specialists in the city, but they could not even stop the itching I was told by a friend of the D. D. D. treatment and began using it at once; the first few applications eased the itching, and in a month's time his flesh was as clear as could be. Yours truly. MRS. S. J. HEATH,

Rutland, Vt., Oct. 17, 1903. We not only sell at retail, but also supply druggists at wholesale prices. D. D. D. costs but \$1.00 a bottle, and is guaranteed to cure or

HENRY J. HUDER

ELWOOD PLANT NOT TO BE ABANDONED AT ONCE

that Maintenance Is Contingent on Cheaper Coal Rates.

GAS IS BECOMING WEAK

Special to the Indianapolis Journal.

KOKOMO, Ind., April 23.-At a meeting of officers and directors of the Pittsburg Plate Glass Company here to-day no action was taken toward dismantling the plant at Elwood, which employs 600 men when in operation. One of the principal officers said: "We certainly will not abandon property of the value of the Elwood plant without very good reason, and it is not likely that conditions will arise soon that would bring about such a thing."

It is known that the fuel question is under consideration. Natural gas is still in use in the furnaces, supplemented with coal, but the gas is being gradually exhausted. Unless the company can secure more favorable freight rates for coal there is danger of both Kokomo and Elwood losing the big plants some time in the not distant future. The company is not considering the question of removal at present, but admits that it is a problem to be met in a few months. The Kokomo plant employs 600 men and is yet in operation.

INDIANA NOTES.

SPENCER.-The twenty-eighth annual commencement of the Spencer High School will be held Monday night, with sixteen graduates, as follows: Mary Allison, Ada Alverson, Calvin Barker, Duke Bain, Will Chavers, Don Ellis, Claude Greene, Elizabeth Johnson, May Kinney, Grace May, Ruth Milligan, Jessie Marley, Paris Pier-son, Frank Rice, Mac Williams, Wig White. SOUTHEAST CORNER WASHINGTON AND DELAWARE STREETS

The prolonged cold weather has had its retarding effect upon the Furniture and Carpet business, which at this season of the year is so dependent upon the house cleaning movement. New Spring goods have been coming in faster than we could make room, and as a result all departments are crowded. We are determined to meet the first of May with a normal stock. Six days only to accomplish our purpose. But a great deal can be done in so short a time, when prices are reduced as they are here. Real and Genuine price inducements in every department. Sale begins Monday morning. Call and investigate. No trouble to show goods.

These pieces will be sold separately or en suite. Finished in red enamel only. Slat back and seat. See these and the new styles of summer furniture with fiber backs and seats. Also some pleasing effects in The Arts and Crafts Summer Furniture finished green.

ENGLISH SEEK TO LEARN CAUSE OF DWARFING RACE

Whiting Man Sent the Police After Owner of the Failed Roselawn Alleged Decline in Natural Physique Will Be Investigated by the Committee.

> LONDON, April 23.-There is a likelihood that the committee which is at present investigating the alleged decline of the national physique will recommend a scheme Chicago and the United States agent, the for measuring and weighing the population

The desirability of adopting such a scheme has been strongly urged upon the By circulating erroneous reports as to committee by doctors and anthropologists. nitude will necessarily occupy considerable time, but it is understood that it has so far advanced that a schedule based upon measurements and tests prepared by Dr. is now being drawn up by a section of the British Association.

A copy of this schedule, it is suggested, should be sent to every householder with a request that he state therein the age, height, weight, chest measurement, and other facts respecting the physical condi-tion of himself and each member of his family. Furthermore, it is proposed to establish in every important center of population a bureau where men and women of all ages will be encouraged to present themselves for measurement by male and female enumerators. A member of the committee pointed out

that many difficulties beset them. There

is no precedent for their guidance, for an anthropometric survey on like extensive lines has never been previously undertaken in Europe. Statistics thus obtained would be, however, of immense value in future comparisons. As regards present practical use, explained the authority, the survey would demonstrate whether the physique of, say, Leeds residents was superior to residents in Manchester. Then local authorities could investigate and, if possible, remedy the causes contributing to the inferiority. No great difficulty is apprehended in registering the height and weight of pupils of these islands has become so cosmopolin the elementary schools, the recruits for | itan an effort should be made to determine the navy and army, members of the civil- the native countries of its constituent memservice and government employes of all classes.
